Fixed or Tilting Wall Mounts

★ ## Secure, yet Removable Wall Mount Design

A two-piece, separable design allows quick docking or removal of your tablet after mounting it onto the wall - or - protect your tablet against removal with locking screws.

★ ## Rugged iPad / Tablet Enclosure

Our VidaMount VESA Tablet Enclosures are engineered like no other enclosure on the market today. With attention to details like a mic hole, speaker grill, interior pads for tablet protection, and a power button service knockout. Our enclosure fully wraps your iPad or Android tablet for ultimate protection and theft provention.
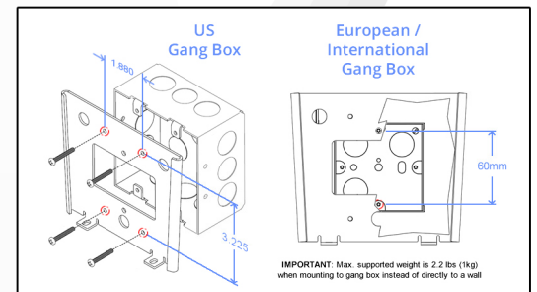

★ ## Customizable Power Button Access

As shipped, the enclosure covers the power button - removing the ability for a user's finger to access the tablet's power button. A tiny thru hole still provides the ability to actuate the power button using a paper clip or other tool. Alternatively - for free, unfettered power button access, the cover is removable as needed!
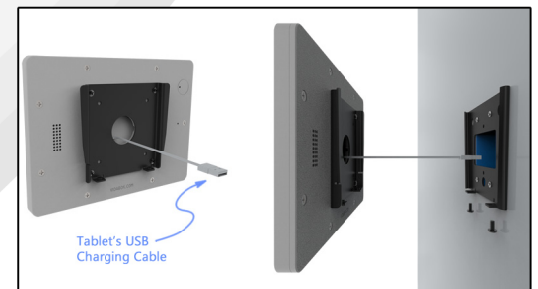

★ ## Fixed Mount Exclusive : Mounts onto Any Standard Gang Box

The fixed VESA mount can be directly attached to any standard US single gang box (3.225" x 1.880"), or any international gang box (60mm inline). Ideal when used in conjunction with our VidaPower adapters - simply run a CAT5 / Ethernet cable into the gang box, then place the VidaPower adapter inside. There's plenty of clearance for connecting the required USB cable for simple installation!

★ ## Fixed Mount Exclusive : Wire Management & Security

The USB charging cable can be passed through the enclosure's rear thru hole, which allows us to route it into an electrical gang box with a recessed wall charger, or our VidaPower adapters for USB power 24/7! Everything is kept nice, neat, and out of sight!
