On-Wall Slim Mounts

★ Easy Tablet Access with Snap-on Magnetic Cover

Our VidaMount VESA Tablet Enclosures are engineered like no other enclosure on the market today. With attention to details like a mic hole, speaker grill, interior pads for tablet protection, and a power button service knockout. Our enclosure fully wraps your iPad, Android, Amazon, or Windows Surface tablet for ultimate protection and theft prevention.

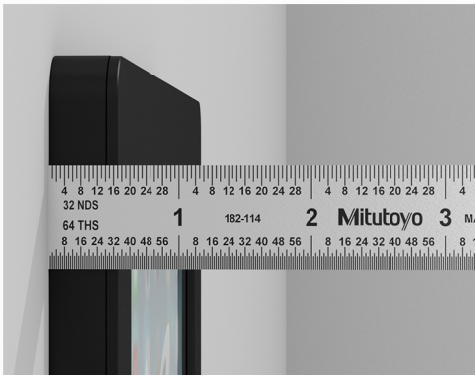

★ Tablet Accessibility

We've made it easy to get access to the iPad tablet at any time. The removable snap cover makes this fast. The mount itself allows access to the tablet's power button without having to physically remove the tablet - handy in cases where the tablet needs to be restarted.

★ Thin, Low Profile Design

It's all about the looks! That's why we have designed this enclosure with a low profile that measures about 1/2" [13mm].

★ Portrait or Landscape

Sometimes, certain apps such as meeting room scheduling or reservation software are locked to a landscape orientation. Our maybe, the time card or "check in" app we're using is designed for a portrait view. No worries! Our iPad tablet enclosure can be mounted in portrait or landscape orientations.

★ No Wall Cutout Required

What would you rather do: Make a huge rectangular cutout? Or, drill four holes in your wall? (We are guessing drill four holes!) Luckily, that's all we'll need to do to install our iPad tablet on-wall mount. This means you can mount our enclosure on any surface - be it drywall, masonry, or tile - easily!
