# 360 Rotating & Tilting Mount

## ★ Rugged iPad / Tablet Enclosure

Our VidaMount VESA Tablet Enclosures are engineered like no other enclosure on the market today. With attention to details like a mic hole, speaker grill, interior pads for tablet protection, and a power button service knockout. Our enclosure fully wraps your iPad, Android, or Windows Surface tablet for ultimate protection and theft prevention.

## ★ Endless Adjustability

The VESA mounting plate provides a full 360 degree rotation, and can also be pivoted for optimal positioning. Both viewing angle and plate rotation can be locked in place independently as required. Mount it vertically on a desk or table, or horizontally on a wall - it's truly versatile.

## ★ A Robust Combination

The VidaMount Table / Desk iPad / Android Tablet Display is a secure, elegant tablet kiosk that is perfect for Point-of-sale (PoS) setups, retail display environments, client sign-ins, trade show exhibitions, or even public events. It's sturdy, table mountable design means you can easily add a tablet kiosk onto any existing desk or table top. Its freely rotating design allows easy tablet access from any angle, and keeps it secure where we place it - while withstanding the high traffic abuse of typical kiosk environments.

## ★ Custom Power Button Access

As shipped, the enclosure covers the power button. A tiny thru hole still provides the ability to actuate the power button using a paper clip or other tool. Alternatively - for free, unfettered power button access, the cover is removable as needed!

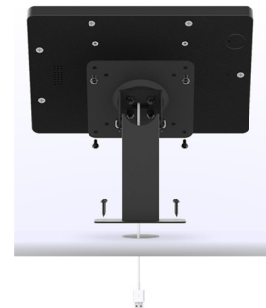

## ★ Simple & Secure

Sturdy steel construction means our mount is strong, yet its hinged assembly allows for both tilt and swivel flexibility, packaged into a solidly engineered design.

## ★ Wire Management and Security

The USB charging cable can be passed through the mounting plate's center hole. It then exit through the bottom via a "Thru-hole" drilled into the table, or via the built-in covered opening. Everything is kept neatly out of sight!
