Metal iPad On-Wall Frames

★ Portrait or Landscape

Sometimes, certain apps such as meeting room scheduling or reservation software are locked to a landscape orientation. Maybe the time card or "check in" app we're using is designed for a portrait view. No worries! Our iPad metal mount can be installed in either portrait or landscape orientations.

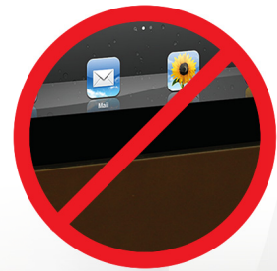

★ Cable Management

Every iPad® needs power - so we've designed the VidaMount iPad® Metal Frame with ample room for either the Lightning or 30-Pin power plugs and cables. Easily hide all the cables & our VidaPower adapter in a gang box behind the metal frame!

★ Optional: Home Button Cover

"To cover, or not to cover?" The choice is yours! If we are running an application which is best left running 24/7, consider adding the optional Home Button Cover to keep pushy fingers away from the iPad® Home Button - leaving your app alone.

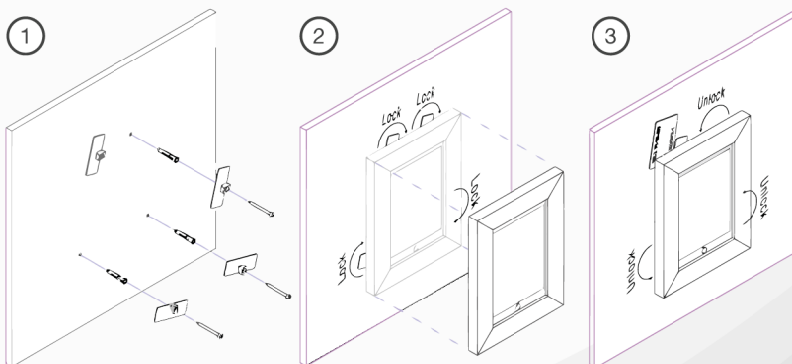

★ Metal, For Beauty and Strength

Solid metal construction - take a look! Our VidaMount iPad® Metal Frames are designed and manufactured like no other frame on the market today. Strong and rigid construction displays your tablet in a whole different light, bringing the glimmer and shine of metal to any kiosk or digital tablet setup! Designed with flush mounting for a clean look, while being secure. It's beautiful!

★ Tamper Resistant Secure Mounting

Our proprietary mounting anchors provide a unique mounting process allowing for easy installation, while removal requires instructions and the included removal tool. We consider it semi-permanent, not meant to be removed on a constant basis, but is accessible if needed. Clean, simple, and effective!

★ Available in (7) Different Colors and Finishes
