# VESA-Ready iPad, Android, & Windows Tablet Enclosures

## ★ Rugged iPad / Tablet Enclosure

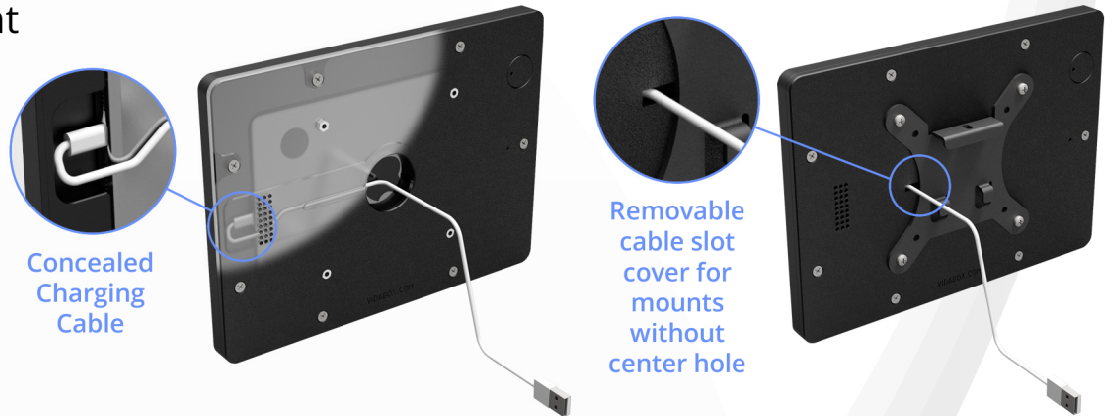

Our VidaMount VESA Tablet Enclosures are engineered like no other enclosure on the market today. With attention to details like a mic hole, speaker grill, interior pads for tablet protection, and a power button service knockout.

Our enclosure fully wraps your iPad, Android, or Windows Surface tablet for ultimate protection and theft prevention.

## ★ Cable Management

We thought of everything, from fitting your Lightning or USB power cables, to a perfectly sized opening for your 3.5mm headphone jack and cord (including some add-on credit card readers). Our enclosure was designed to fit your needs.

## ★ Custom Power Button Access

Our unique enclosure design provides a choice between open or limited power button access. As shipped, the enclosure covers the power button - removing the ability for a user's finger to access the tablet's power button. A tiny thru hole still provides the ability to actuate the power button using a paper clip or other tool. Alternatively - for free, unfettered power button access, the cover is removable as needed!

## ★ VESA Mounting Points

VESA 100 (100mmx100mm) compatible mounting points means it can be used with a wide range of tablet mounts (including our wall, table, and floor mounting options).

## ★ Optional Security Screw Kit

Our tamper-proof screw kit helps keep your tablet set up safe and secure, by changing the screws on the enclosure from Phillips to tamper-proof heads.
